A MACCAFERRI Company

B-AVI

CHICKEN MESH

BMD Technical Fabrics

An opportunity for your needs!

Opened in Bahia in May 2000, BMD Têxteis, a pioneer in the technical fabric development industry in the Northeast, is part of the Maccaferri Group, which has been developing solutions for civil infrastructure engineering for over 140 years, being a world leader in the fabric sector.

Manufacturer of products used in fish farming, agriculture and environmental solutions such as geotextiles and geogrids, in the area of civil construction, it also operates in the production of various products such as synthetic tarpaulins for awnings, covers, blinds, safety clothing, industrial filters, footwear, bags and gifts. Furthermore, it develops fabrics for the specific needs of each client.

BMD Têxteis quickly gained important customers in the domestic and foreign markets. Today, the company is recognized for the high quality of its products and excellence in the development of innovative solutions.

Quality

Dedication, productivity and excellent performance in each activity.

Commitment

Assumes responsibilities and fulfills obligations with quality, ethics and punctuality

Innovation

Creations, inventions or technologies generated in product or process research environments.

Innovation and Quality

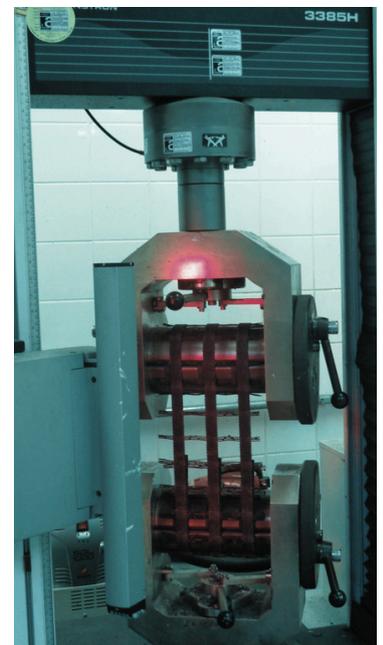

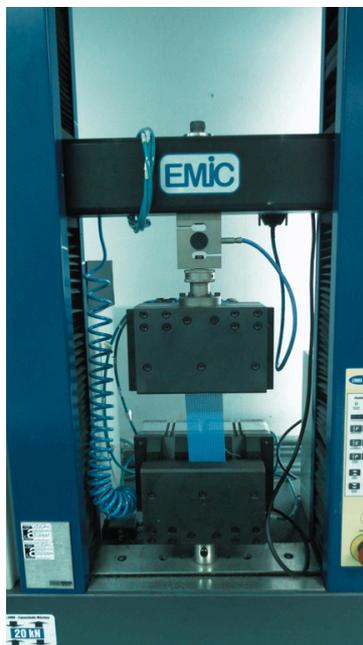

BMD demonstrates its search for continuous improvement through the Quality Management of its products and processes, with a multifunctional team (Laboratory, Quality, Process Control and Costs).

The BMD Têxteis management system was evaluated and found to comply with the requirements of ISO 9001

The BMD laboratory has modern facilities and equipment and qualified human resources, which make it “capable of researching, developing and testing products with very high technical capacity, suitable for meeting the quality standards required by the market and regulatory bodies”, in the appreciation of own company.

BMD constantly invests in new and automated machines, which ensures you produce a wider variety of products with quality and lower cost. High productivity machines, with network connectivity, internet, sensors and actuators, in line with the demands of Industry 4.0.

Sustainability

Thinking about the environment and sustainability, BMD innovates in the formulations of its products, opting to use cleaner technologies, generating sustainable practices related to the environment. BMD, in partnership with cooperatives in the region, donates materials and scrap, transforming waste into the development of new products and recycling, and also strongly participates in the Zero Carbon (CO²) Project, contributing to the reduction of the negative environmental impact on the planet.

**BMD is certified by ISO 14001,
being a company compatible
with environmental
management.**

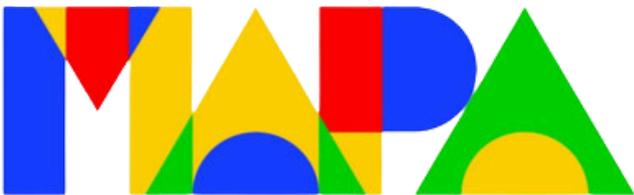

B-AVI

Line of meshes for the agribusiness to protect and breed birds

The b-avi mesh was specially developed for the poultry segment, being resistant to high temperatures and exposure to the weather. The mesh is simply ideal for the best protection of birds, respecting the standards of the Ministry of Agriculture, Livestock and Supply (MAPA), with an opening of up to 1 inch to prevent the entry of birds and other animals.

Complies with the rules and regulations of the Ministry of Agriculture and Livestock

Product lines

- BMDNET LA opening between meshes of **2,50**cm
- BMDNET N opening between meshes of **2,00**cm

ADVANTAGES

- High resistance product;
- Light, flexible and easy to install;
- High resistance to tearing and fraying;
- Increases the useful life of the night curtain;
- Weather resistant;
- Washable and easy to clean;
- Does not dry out and does not absorb moisture;
- Highly durable product;

High tenacity polyester fabric
coated with added PVC!

FEATURES

- 50ml reel; 164ft
- 2.15ml; 2.55ml; 2.90ml; 3.25ml; 3.65ml; 4.75ml; 5.80ml; widths
- 7.0 ft; 8,4 ft; 9.5 ft; 10.7 ft
- Flame retardant;
- Anti-UV;
- Antimicrobial;
- Antifungus;
- Available in black;

Information table

Technical properties

Regulation

Values

BMDNET AVI N

Gramature (g/m ²)	EN ISO-2286	155 ± 10
Thickness (mm)	EN ISO-2286	1,35 ± 0,10

BMDNET AVI LA

Gramature (g/m ²)	EN ISO-2286	105 ± 10
Thickness (mm)	EN ISO-2286	1,25 ± 0,10

RECOMMENDED INSTALLATION:

- The installation of the Avian Mesh is very simple:
- Stretch the mesh at the height of the Farm;
- Interlace a Multi-Purpose Cable from BMD Textiles or Wire at the top, middle and bottom of the mesh;
- Stretch the cable to the other end of the farm intertwining through the screen and fasten in the column;
- Attach the Mesh to each column with nylon clamp 66 (Hellermann tape);
- Concrete or fasten on hooks at the bottom.

Innovative product with proven durability for more than 13 years.
Present in the largest customers in Brazil and South America.

**The best solutions in technical fabrics
lead you to BMD!**
